MEDIC1000IN

⊕ MEDIC 1000 SERIES 10 Person Kit

DESCRIPTION:

The First Aid Kit has a unique design with compartments inside to hold contents. The semi-transparent cover offers easy access to the different content areas. The box can be taken anywhere leaving more space for other necessary first aid fillings. Can be free standing and is also supplied with a bracket to wall-mount the kit. Soft semi-automatic opening system. Dust proof lid keeps contents clean and sterile. All products come with clear, self-explanatory instructions.

KEY FEATURES:

Classification of Outer Case : ANSI Type III kit. Portable, Mountable & Water Resistant.

Kit Colour : High Visibility Orange

Mounting Provision : Supplied with a Wall Mount Bracket

Contents : Colour Coded as per ANSI ANSI/OSHA Z308. 1-2015 standards.

Dimensions : 20 X 20 X 6 cms

⊕ MEDIC 1500 SERIES 15 Person Kit

DESCRIPTION:

This First Aid Kit is made from a durable medical grade HDPE material with a matte finish to keep dust, moisture and dirt at bay. It keeps the contents hygienically clean, so it is always ready to be used. The contents are packed in transparent plastic packs, so you can clearly see all the products, making it easy to find the product you need when every second counts. All products come with clear, self-explanatory instructions. The kit is a High Visibility coloured one, making it easy to see from a distance. The practical handle makes it easy to attach the case or carry it with you.

KEY FEATURES:

Supplied with the Patented MEDIC FIRST-AID Disc Guide.

Classification of Outer Case : ANSI Type III kit. Portable, Mountable & Water Resistant.

Kit Colour : High Visibility Orange

Mounting Provision : Supplied with a Wall Mount Bracket

Contents : Colour Coded as per ANSI ANSI/OSHA Z308. 1-2015 standards.

Dimensions : 26.5 X 21.3 X 8.9 cms

MEDIC1500IN

⊕ MEDIC 2500 SERIES 25 Person Kit

DESCRIPTION:

The ICONIC MEDIC Series, MOC – ABS-synthetic material, temperature resistant, shockproof, dimensionally stable, dust proof, waterproof, low-maintenance, transparent cover panel, smooth turn-lock fasteners, sealing device. A flexible first aid kit to be mounted on the wall that easily can be clicked down and thanks to its robust handle be brought to the emergency situation. Lifejacket

Specifications & Features

UltraSafe Products is a renowned manufacturer and supplier of a wide range of Lifejackets and Accessories. UltraSafe Lifejackets conform to the requirements of International Maritime Organization's (I.M.O.) Safety of Life at Sea (SOLAS) Convention and Life Saving Appliances Code (LSA CODE) along with their Amendments as entered into force from time to time. UltraSafe Life Jacket are fully approved. UltraSafe manufactures lifejackets catering to various

Sectors:

Marine Industry, Central & State Government Disaster Management Department Sports, Tourism and Recreational Industry

Lifejackets manufactured under the above Models are tested fully in conformance to the requirements of MSC 81 (70), MSC 200 (80), MSC 207 (81) and MSC 201 (81) and latest IMO (MSC) regulations.

very user friendly, comfortable to wear and ideal in all respects for use by the personnel working on any type of vessel, be it Cruise Ships, Passenger Ferries, Cargo Ships, Offshore Vessels, Tankers, Sailing Vessels, Fishing Vessels, Port Tugs, Inland Boats, Trawlers, Barges, Rigs, Oil Process Platforms and Offshore Installations.

Ultrasafe Life Jacket is SOLAS make Lifejacket designed to be folded to take up minimal space when stowed. There is nil dead buoyancy across the chest which means full freedom of movement for the user, which ultimately makes it easier to board the liferaft or any marine craft. Extra comfort is being provided by provision of a back panel and a side entry which ensures easy donning. Donning instructions are provided on the top section of the lifejacket. The lifejacket is equipped with a crotch strap to ensure proper fit and performance after impact with water. The waist belt is 175 cm according to MSC.200 regulations ensuring one-size fits all for both universal and oversize crew and passengers. The lifejacket can be marked with customized marking of i.e. cabin number. All lifejackets are produced and certified according to the updated MSC.200 regulation and according to ISO9001:2015.

POWERHEART G5 (AED)

DESIGNED FOR UNEXPECTED HEROES

When someone is the victim of sudden cardiac arrest, their survival depends on high-quality CPR and a rescuer with an AED.

When there's a call for help, will you be ready?

POWERHEART G5 (AED)

Product Features

- ICPR technology provides real-time, guideline-driven CPR feedback on the quality of chest compressions.
- RescueCoach prompts advance upon completion of each rescue task
- Dual-language function enables users to toggle between preset primary and secondary languages with a touch of a button
- Fully automatic G5 unit will deliver a shock automatically when it detects a shockable heart rhythm
- AED stores 90 minutes of rescue data, accessible by USB cable or USB memory stick
- IP (ingress protection) rating of IP55 for dust and water
- Rugged design withstands conditions like extreme temperature, high altitudes, and vibration
- Non-polarized IntellisenseTM defibrillation pads offer a 2-year shelf life
- Intellisense[®] Lithium battery offers a 4-year shelf life
- Pediatric capability with IntellisenseTM pediatric defibrillation pads (recommended for patients 8 years of age or younger or weighing less than 55 pounds (25kg))
- Rescue Ready[®] indicator shows readiness status of battery, pads, and device
- Soft carry case for easy travel

IntellisenseTM

Defibrillation Pads

Non-polarized pads can be placed in either location on the chest for simple, fast placement.

RescueCoach[®]

User-paced voice and text prompts guide rescuers through each critical step of the rescue, including CPR instruction.

USB Data Download

90 minutes of rescue data available via USB download.

Dual Language

Change from primary to secondary language with the push of a button, without delaying or interrupting the rescue.

Automatic Self-Testing

Conducts regular, automatic self-tests on pads, battery and internal circuitry to ensure your AED is always Rescue Ready[®].

IntellisenseTM CPR Feedback

Real-time voice and text corrective prompts for CPR quality.
